Rent of liner end packer for Pipe-Seal-End – rental conditions

1 Rental duration

1.1 The rental begins

- if the rental device is collected by the customer: at the time of collection, or
- if the rental company has agreed to transport the rental device: at the time the rental device is handed over to the customer, collector or another person appointed by the customer at the delivery location.

If a specific date was agreed for collection or handover, and the customer fails to accept the rental device, then the rental begins on the date the device was ready.

1.2 The rental ends when the rental device is returned, i.e. when the rental device is in the rental company's storage area or another location specified in advance.

2 Shipping

2.1 Transport costs inc. any fees (customs, taxes, delivery, etc.) are at the customer's expense, unless agreed in writing in advance.

3 Usage

3.1 The rental device should be used as intended. In particular, the specifications in the manufacturer's handbook must be adhered to.

3.2 The rental company cannot accept any liability towards the customer or a third party based on claims resulting from accidents when using the rental device. The customer has full responsibility for complying with the safety provisions.

3.3 Damages caused by the customer (to the rental device) are to be charged to the customer.

3.4 Rental devices that are dirty when returned will incur a cleaning fee based on the work involved (45.00 EUR/hour).

3.5 It is not permitted to rent out or pass on the rental device to a third party. Other transactions shall be entirely the responsibility of the initial customer.
